

## HOSE CRIMPING MACHINE

### I 92 series

#### Advantage:

With the special shape, bright color and super eminent international style, 92 series hose crimper leads the person to another new view .The machine head matches with its body perfectly. The machine internal framework's design is very exquisite, delicate and scientific.

- (1) It supports installing and uninstalling dies as a whole at once.

Die change gun (option)

- (2) The all the dies array in the dense way in order to crimp the non-stand fittings and elbow fittings and all kinds of hose, such as industrial hose, high pressure hydraulic hose, PTFE hose and so on.
- (3) It makes the high press force and large opening come true for machine by adopting multi-layers in term of die.
- (4) Repeatability precision reaches to 0.01mm and venire regulation is accurate and steady for advanced control of crimping.
- (5) The machine is safe and reliable for operator for using the excellent hydraulic and electrical element.

- (6) **the die shelf:**

**All in all, this type machine is the first choice for large production of hose assembly.**
